LANstar L.L.C.

Press Release

LANstar, L.L.C. Continues Growth By Announcing The Hiring Of A New General Manager.

Richard Roy joins the LANstar team as the new General Manager.

Mesa, AZ April 26, 2010(FPRC): Despite the economic downturn, LANstar, L.L.C. has grown its staff again. Richard Roy has joined the team as its new General Manager.

Before joining LANstar, a full service IT services company, Mr. Roy served as the Network Administrator and Systems Integration Specialist for JusticeTrax Inc. also of Mesa, Arizona. JusticeTrax is a privately held software company which makes products for the criminal justice system.

Mr. Roy's background includes 12 years of managing small business networks of various types. He is a Microsoft Certified Professional specializing in Small Business Server. Prior to JusticeTrax, he was the network administrator for ProfitKey International, an ERP vendor to small and mid-sized manufacturers.

"We are very excited to have Rich on board" said Joel Ray, President of LANstar. "With his integrity, experience, and "customer first" attitude, he will fit right into our culture and business model."

LANstar expects continued growth this year due to its successful business model of employing experienced, personable engineers who have the customer's best interest at heart. With the adoption of EMR (Electronic Medical Records) Systems, many LANstar customers and prospects need to purchase Dell or HP computers and servers and new laptops so they call LANstar to handle the whole upgrade with in-house full-time employees. LANstar engineers have been assisting medical practices with EMRs such as Practice Partner, Athena, Medisoft, eMDs, Amazing Charts, and Centricity for many years so medical offices choosing an EMR today can receive lots of support from LANstar.
